Entering the parking garage
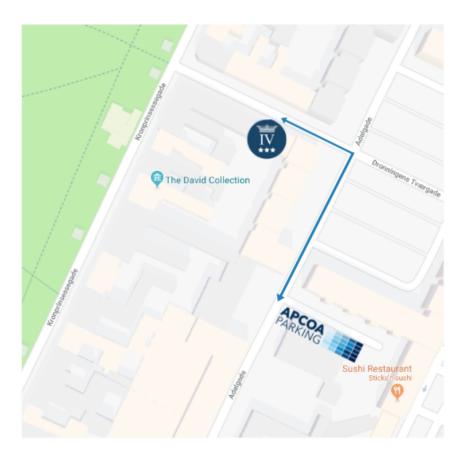

1. Drive to the parking garage in Adelgade 16 (Less than 150 m from the hotel).
2. Find a parking spot and remember the license plate number of the car (take a picture if in doubt).
3. Inform reception staff about license plate number and they will register the car.

The discounted ticket is valid for 24 hours from the time the car entered the parking garage.

The ticket includes in & out privileges within the valid 24 hours.

The gate might be closed for entry from 10 PM to 6 AM. It is always possible to exit the parking garage.

Exiting the parking garage

1. If you have parked for *24 hours or less*, simply drive towards the exit and once the license plate number has been scanned, the gate will open.

2. If you have parked for *more than 24 hours but less than 30 hours*, enter your license plate number at the payment machine at the garage. The machine will know that the first 24 hours are paid in advance so you will only pay the remaining amount. Once the additional hours have been paid, drive towards the exit and once the license plate number has been scanned, the gate will open.

3. If you have *parked more than 30 hours*, remember to ask the staff at the reception to extend the parking registration. The time can also be registered retroactively. As long as you have parked for less time than what you have paid for, you can drive towards the exit and once the license plate number has been scanned, the gate will open.

If the gate does not open, please get in touch with APCOA via the button next to the gate.
Hotel Christian IV will not be held reliable if you pay directly at APCOA.
